

Orange and Calendula Deep Cleansing Balm

We've selected the best, truly natural ingredients so you can enjoy the feel of soft, clean skin that glows with natural health.

Wildcrafted Beeswax – with its propolis and honey intact is a natural exfoliator and humectant (works in a similar way to the synthetic hyaluronic acid), drawing water into the skin throughout the day, keeping it plump and refreshed.

Organic Safflower oil – with its silky feel on the skin will help break up blackheads and other impurities.

Organic Jojoba – the closest in composition to the oil your body naturally produces so is perfect to remove any pore-clogging oil or grease from your face and replace it with natural, clean organic oil

Organic Calendula – the nourishing benefits of calendula are traditionally used to help plump the surface of your skin giving you firmer, more supple skin. In the long term, both the anti-inflammatory and antioxidant properties have been used to help to protect your skin's collagen and elastin supply.

Kaolin clay – kaolin gently removes dirt and impurities from the skin without causing redness or irritation minimising the appearance of pores and banishing blackheads, leaving the skin clear and clean.

How To Use

This balm is best used as the first cleanse as it breaks down make-up, SPF and any oils (sebum, sweat) on the surface of the skin.

Simply massage a small pea-sized amount of our natural facial cleanser into your face, then gently cover your face in a warm damp cloth (such as our organic muslin cloth) or flannel and wipe away the day (or night!). You can also use damp cotton wool. This helps remove all traces of oil, ensures maximum dirt removal and has the added benefit of gentle exfoliation.

If you like that 'squeaky clean' feel, try following with a water-based cleanse (like our Goat's Milk & Honey Handmade Soap)

Follow up with a couple of drops of our nourishing Daily Face Serum, or a spritz from our Organic Rosewater and rich Night Balm.

This is the full list of ingredients:

Organic Safflower Oil – *Carthamus tinctorius*

Organic Sunflower Oil – *Helianthus Annus*

Pure Olive Squalene Oil – *Olea europaea*

Organic Jojoba Oil – *Simmondsia chinensis*

Wildcrafted Beeswax – *Cera alba*

Organic Shea Butter – *Butyrospermum parkii*

Natural Kaolin Clay

Natural Calendula Flower Extract – *Calendula Officinalis*

Natural Vitamin E Oil – *Triticum vulgare Tocopherol*

Sweet Orange Essential Oil – *Citrus aurantium dulcis*

Neve's Bees Promise:

100 per cent natural, cruelty-free and UK-made. Housed in a glass jar with an aluminium lid – fully recyclable packaging. Good for you, good for the world...

Plus, we donate 10% of our profits to wildlife causes to help bring back our wildflower meadows and the bees and other pollinators they support.

Neroli and Bergamot Face Serum

Packed full of natural moisturisers to smooth the skin and diminish the appearance of fine wrinkles with botanicals to add nature's magic so you can truly love the skin you're in,

English Red Raspberry Seed – Bursting with antioxidants, this amazing oil also promotes cell regeneration for silky smooth skin. In addition (although we can't actually recommend using it instead of a sunscreen – there's a lot of very expensive testing needed before this!) raspberry seed oil has been shown to offer a degree of natural protection against UVA & UVB. Our English raspberry seeds are rescued from the jam industry – a true sustainability win!

Organic Rosehip Oil – for cell and tissue regeneration and great for reducing wrinkles and rejuvenating the skin. It is also used traditionally to help in skin damaged by eczema

Organic Sea Buckthorn – an effective anti-ageing oil, by reducing those wrinkles and boosting collagen production it is an oil that deeply penetrates the skin's lipid layer, diminishing imbalances from the inside out. It reduces redness, inflammation, water loss, and premature signs of ageing. It regenerates cells and increases healthy skin structure

Natural Olive Squalene – sinks into the skin quickly to plump it up and make it feel soft and smooth. It is believed to slow down water loss from the skin, boosting skin's moisture and making the complexion look more radiant and nourished

Organic Borage Oil – with high levels of the rare fatty acid GLA (Gamma Linoleic Acid) Borage Oil is a little-known secret for keeping your skin healthy. Not only does this natural oil restore moisture and smoothness to dry and damaged skin but a recent review of studies using borage oil topically found it has both antioxidant and anti-inflammatory effects that can be beneficial for people with chronic skin disorders such as eczema and atopic dermatitis

Our Facial Oil Serum is rich in nature's super-oils, with the delicate scent of Neroli (Orange Blossom Essential Oil) our Daily Face Serum is truly a nourishing treat for your skin.

Also excellent as a hair or beard oil – jojoba oil softens hair whilst rosehip keeps the skin beneath healthy and reduces irritation.

How To Use:

After cleansing, simply apply 2 – 4 drops either directly to your face or into your hands and massage into your skin. If used after our Cleansing Balm, our balance of emollients, humectants and occlusives provides a complete skin solution and is a fab face serum for dry skin and oily skin alike.

If you prefer a lighter oil, simply spritz one or two sprays of our Pure Organic Rosewater before applying Neve's Bees Daily Face Serum.

Here is the full list of ingredients:
