Shelf Life & Storage

Whoopies stay squidgy for 2–3 days from delivery, assuming our courier is able to deliver your Whoopies on first attempt. Store your Whoopies

in a cool, dark place. They do not need to be kept in the fridge. An airtight container will keep them fresher for longer.

You can also freeze your Whoopies to keep them for longer. To defrost, either leave at room temperature for 4–6 hours, or pop one Whoopie at a time in the microwave on full power for 15–25 seconds, depending on how powerful your microwave is, and eat straight away.
