HOW TO ENJOY YOUR TEA

Alchemy Tea sources and blends the finest teas with botanicals from around the world to bring you an experience which is sure to relax and revitalise.

Select your preferred blend from our range and fill the infuser so it is a little under half full (around one teaspoon of tea for a normal strength cup).

Heat your water until just before boiling. Fill your cup with water and place the infuser in the cup. Give the cup a gentle stir with the infuser and then leave it in the water for all of the ingredients to release their natural flavours and aromas. After a couple of minutes remove your infuser, sit back & enjoy a perfectly blended high-quality tea.

Experiment with your own blends by combining different teas from our extensive range.

Enjoy.
